ITHACA, Sept. 14.-The largest crowd of the week

The George speculators were jubilant over his victory and he remained a hot favorite over In the second heat he led by a length to the half mile. Foote began to give The Private half mile. Foote began to give The Private his head at that point and before they rounded the upper turn he was at George's wheel. As they swung into the stretch they were neck and neck, two lengths alead of Dick See. They set a clip down the stretch that actorished the spectators. After passing the distance pole the pace began to tell on the favorite, and he went in the air. The Private finished a length in the lead, pulled up, in 2014. The second quarter was paced in 6398, and the last quarter in 631. This heat settled the thances of McKenny's gelding and settled the thances of McKenny's gelding and the speculators were quick to see it. A rush was made for the books and the auctions to hedge out, but there was lattle money to be had against the Private. The latter had little trouble to with the next two heats in much slower time.

pleased.

A. C. Maynard's Brandywine had little trouble in winning the 2-20 trot in straight heats. He was favorite ever the field at \$50 to \$45 and the talent got some of the George money back. A. B. Gwathney's Tiverton was a starter and in two heats led the field to the upper turn, trotung like a winner. Each time, however, she would leave her feet and lose her advantage. Quite a number of horsemen who have waterled the races in which the Syracuse gelding. Tip Tohas been enaaged this senson, freely expressed the opinion that he could trot faster, but he did not appear able to keep pace with Brandywine. He was up in the front bunch to the quarter in each heat, but Denarest had no trouble in sending the gray gelding around them at any stage of the journey.

C. K. G. Billings, the Chicago road rider, who has sixteen head of horses here for the autumn diving on the Speedway, won the third and deciding trot in the road wayon trot, with Franker, beating A. E. Perren's Zembia. The heat was made in 2:1616. Afterward Mr. Perren stated that his mare should not have been beaten in that time and he drove her a mile, which was hung out as 2:14%. Several watches timed her firster. Not to be outdone Mr. Billings drove Franker again and this time he went in 2:11%.

Mr. Billings drove Franker again and this time he went in 2414.

During the afternoon James Butler and Fred derken had an argument with Nick Hubinger bout the respective merits of the pricers fred S. Wedkewood and The Private. A march or \$10,000 a side was talked of but they could not agree on the date. Mr. Hubinger wanted the contest decided next Friday at the Empire IIV track, while Mr. Butler wished to have it on Tuesday or Wednesday, on account of M. E. Medienry's engagement at Indianapolis on thursday—he could not be here to drive Fred S. Wedgewood. Hubinger would not agree to by date except. Friday. Finally Mr. Butler aid he would make the match to be reced at any date except: Friday. Finally Mr. Butler said he would make the match to be paced at the Lexington meeting next month, but the challenge was not accepted.

On to-days card are the 2.07 pace, with ten entries: the 2.16 trot, with twelve entries: a trial by James Butler's great pacer. Coney, to beat the world's pacing record to wagon, and an exhibition mile by Free Bond, the pacer that went a half mile to wagon during the week in 1.00%. At twenty-five minutes of 6 o'clock yester-day afternoon, Umpire Gafney called the Brooklyn-Cincinnati game at the end of the eighth inning on account of approaching dark-Brooklyn-Cincinnati game at the end of the eighth laning on account of approaching darkness. The score was 2 to 0 against the Champions at the time, and much fault was found with the umpire's ruling by the spectators and the Brooklyn players who argued that it was plenty light enough to play the game out. The Brooklyn club officials should call the games earlier than 4 o'clock, especially in view of the fact that the championship does not appear to be a cinch for Hanlon's men. Kennedy was put into the box once more and he did well enough to win an ordinary game. But the Brooklyns were help-less in front of Phillips, who pitched invincible ball all the way through. The Cincinnatis scored their first run in the second inning. Beckley was safe on an infield hit and was forced by Corcoran. Quinn's single put Corcoran on second and the latter reached third as Breitenstein forced Quinn. Then "Breit made a bluff steal and on Dahlen's muff of McGuire's throw Corcoran scored. PLAYERS ADDRESS THE LEAGUE. Formal Request for a Conference Which

Ebbets of Brooklyn Favors. The Protective Association of Professional Bas ba'l Paye's has formally requested a conference with the magnates of the National League through the following official communi-

League through the following official communication:

Mr. N. H. Young, Esq., Washington, D: C:

DEAR SIR: I am writing this to you as the attorney for the newly organized Protective Association of Professional Baseball Players. You have possibly heard something about the formation of this organization, but of course you know little, really, about its scope, its objects and its plans. I am now in a position to tell you all about them, frankly and fairly, with a view to getting a conference of the proper representatives of your League and the Eastern and American leagues relative to cooperating for the advancement of the game of basebail.

We realize, as you do, that there are certain existing circumstances and conditions which militate against the prosperity of the game. We feel not only that there are certain inequalities in the contractural relation between owners and players (and we are frank to say that there is one thing we want to discuss, but there are several other matters which can be improved upon, some of which are within the power of the players to correct. I assure you, sit, that I have advised and shall continue to advise the ball players to pursue a conservative course, and I further assure you that they do not want trouble, and that they want no disruption of existing vested rights, but that we want, as far as may be, to Join with the owners in a business-like way to improve the game. I have written just now to all the club presidents in your League and to representatives in the other two leagues, asking their views as to an early conference, either altogether or separately, with me. I wish you would please do what you can at your earliest convenience to bring about a conference of the people in your League with me. And for several reasons I should like to have it before very long. Respectfully yours.

Sept. H. 1900.

C. H. Ebbets, President of the Brooklyn club, is the first League man to express himself in ernor's cup, presented by the late Roswell P. Flower. Ordnance Sergeant John Corrie of the non-commissioned staff of the Twelfth Regiment, who holds the record for the ranges and has won the cup three or four years straight, had to give way to Sergt. Stevens of Company F, Seventh Regiment, yesterday, the latter winning by four points and coming within three points of the State record of ninety-five points. Eighty competitors faced the buts. All made good scores. The match is decided in the form of a skirmish run and is very spectacular, no sighting shots being allowed and the firing being by bugle commands. One minute being allowed at each distance.

Any shots fired before or after the bugle sound counted a miss. Many contestants had their scores reduced by this rule, one man losing ten points. The troops and Squadron A men and Battery contestants armed with carbines received an allowance of three points on the total score. Sergt. Alexander Stevens of Company F, Seventh Regiment, won first place with 92: Ordnance Sergeant John Corrie, non-commissioned staff, Twelfth Regiment, was second with 88, and Lieut. T. C. Wiswell. Company F, Seventh Regiment, was third with 86.

C. H. Ebbets, President of the Brooklyn club, is the first League man to express himself in regard to the players' movement. He said to The Sun reporter yesterday:

"I believe the League should grant a hearing to the Protective Association and if the demands of the players are just they should be acted upon favorably. If the players really have grievances, and there is no doubt they have some, the League ought to adjust them. I believe in treating the players with fairness for they are the life of the game."

Foxhall P. Keene, the junior member of the Keene racing firm, has come forward after some unavoidable delay with a reply to W. C. Whitney's proposition to race Ballyhoo Bey against Tommy Atkins. It will be remembered that after the running of the Flatbush Stakes at Sheepshead Bay, in which Sloan rode the Whitney colt to victory white Spencer finished a close second on Tommy Atkins, there was a question as to whether the race was truly run, and whether the better colt won. Foxhall Keene expressed himself strongly on the subject in the excitement of the moment, and lodged a protest against the payment of the stake won by Ballyhoo Bey. His impression was that Tommy Atkins should have won. The history of the race is too well known to call for recapitulation, as the known to call for recapitulation, as the bumping match in the stretch is now a part of the history of the race. Tommy Atkins lost considerable ground in trying to squeeze through a tight place near the rail, while Bailyhoo Bey was cut down so badly in the near fore leg that he has been out of training since. Mr. whitney felt the regrettable incident as keenly as the loser and soon after the race sent the following letter:

as the loser and soon after the race sent the following letter:

The Secretary of the Coney Island Jockey Club:
SIR: The running of the Flatbush Stakes recently was most unsatisfactory to every one; as the winner of the stake, it was especially so to me. The circumstances of the race left in doubt the question which horse would have won in a true-run race. It would be agreeable to me if you would retain from the winnings of my stable at this meeting the amount won by me in the Flatbush and arrange for a meeting of the two horses at Morris Fark and add this money for me to such stake as may be put up by the Westenester Association, the race to be at seven furlongs and at equal weights. If the event does not occur by reason of the non-appearance at the post for any cause of Ballyhoo Bey, you may retain the money for such fund applicable to disabled jockeys as we may agree upon. This proposal does not call in question the decision of the race, or stewards. It simply assumes that the race was not truly run, which all admit. Very respectfully, WILLIAM C. WHITNEY.

communication on the subject:

New York, Sept. 14, 1900.

I have received the following letter from the stewards of the Jockey Club, which fully explains their decision in regard to the Flatbush Stakes.

I cannot accept Mr Whitney's remarkably generous offer to race again for a stake already won by him, but I should be glad to run Tommy Atkins against Ballyhoo Bey for a purse, each owner to add \$5,000, seven furlongs, 122 pounds each, if Mr. Whitney's horse can be ready by the first week of the Morris Park meeting.

The official statement addressed to Mr. Keene was as follows:

"New York, Sept. 13, 1900.

"Fothall P. Keene, Esq. Bayside, L. L."

"DEAR SIR—I have been directed by the stewards of the Jockey Club to acknowledge the receipt of your communication of Sept. 1, lodging a protest respecting the payment of the Flatbush Stakes to the owner of Balleyhoo Bey. Your attention is called to rule 134 of the Racing Rules, as follows:

"134. Every objection shall be decided by the stewards of the Jockey Club, so far as relates to boints involving the interpretation of these rules, or to any question other than a question of fact, on which there shall be no appeal, unless by leave of the stewards and with the consent of the stewards of the Jockey Club. Notice of appeal must be given in writing to the clerk of the course within forty-eight hours of the decision being made known.
"Your protest is made under this rule. It appears to the stewards to involve a question of fact over which the stewards to involve a question of fact over which the stewards to involve a question of fact ordering.

"If your protest can be so framed to Rule 134 it will be considered, otherwise the stewards of the Jockey Club have no power to go further into the subject."

FEATURES AT GRAVESEND.

and Second Special.

The Brooklyn Jockey Club presents an attractive programme for the fourth day of its autumn meeting at Gravesend this afternoon. There are only two selling races on the card, all the other events being brimful of class. A highweight handicap on the flat and a steeplechase handicap over the full course lead up to the Holly Handicap with nearly all the best two-year-olds engaged. The best endowed two-year-olds engaged. The best endowed and most promising event, however, is the Second Special with \$2.500 added, for three-year-olds and upward, at one mile and a half. With Kinley Mack, Ethelbert. Imp and Mc-Meekin scheduled to go the race should be one of the features of the season.

The official entries and weights for to-day are as follows:

.... 103 At Harlem.

CHICAGO, Sept. 14.—There was only an ordinary programme at Harlem to-day. The racing was featureless, except for the long lines behind certain tookmakers boxes after the fifth rac. These layers of odds took liberties with Money Muss and in spite of the september of the septembe of odds took inherites with Money Muss and in spite of a heavy public play his price went up from 4 to 5 to 2 to 1. Judge Hamilton sent for the owner and lockey and warned them, with the result that the price disped immediately to 8 to 5. Money Muss won and a good many are wondering just what the angle was Three favorites won. Pat Garrett, winner of the last race, was backed from 20 to 1 to 8 to 1, but the books did not loss much on the race, as it was a bad lot and an open race. Summary:

TOWNY ATKINS VS. BALLEHOO BEY. NEWS OF THE WHEELMEN. SENSATIONAL TRIUMPH OF W. S. FENN IN AMATEUR RACES

Major" Taylor Leads in the National Cycling Harry Caldwell in a Twenty-Mile Motor-Paced Race-Repairing "Auto" Tires BALTIMORE, Sept. 14.-Johnny Nelson last night defeated Harry Caldwell in a 20-mile motor-

paced race at the Colosseum. Caldwell dropped out of the race in the fourteenth mile. Caldwell's defeat was in a great measure due to his poor pacing machine which was unable to go better than 1:42. Nelson took the lead from the start and the tenth mile was a mile to good. Caldwell then left his motor and Nelson's manager magnanimously sent out Nelson's other motor, the red devil, to pace Caldwell. He then rode the four miles in record-breaking time, but the pace was too fast and Caldwell seeing that it was a hopeless case dropped out of the race. Nelson's time for the twenty miles was 32 minutes and 18 seconds This practically put Caldwell out of the race for the championship. W. S. Fenn of Bridgeport, a boy of 18 years

was announced as the "boy wonder" when he first appeared at Vailsburg about six weeks ago. He was received with the cynicism of all other "wonders" by those who had purchased programmes; but on that Sunday he won a five-mile handicap and all of the special prizes offered for leading at the various five-mile in ervals and the spectators agreed that he was a wonder. The result of the first night's racing for the national amateur champion-ship at Buffalo, on Wednesday night, brought out Fenn in strong relief as a second Kramer, whose speed in a finishing sprint is such that he outclasses all his associates in the medal and watch-winning ranks. Three championship events were scheduled and Fenn won all of them. The events were a quartermile, a half-mile and a two-mile. In the quarter-mile event Schofield of the Kings County Wheelmen pushed Fenn rather hard, but the other two events he won handily. In the quarter-mile Schofield finished second and F. J. Denny of Buffalo was third, the time being 33 seconds. The half-mile champion-ship final was ridden in I minute 12 2-5 seconds with W. F. Wahrenberger of New York city second and W. A. La Due of Cold Spring, N. Y. third. In the two-mile race Guy Johnson of Buffalo finished second and Wahrenberger was third, the time was 5 minutes 82-5 seconds. Fenn's great triumph over a large field of the best amateurs of the country was the sensation of the first night's meet and the professional match race between Al Newhouse and George Collett, which was billed as a special feature of the evening, was almost totally eclipsed. Newhouse won the match easily in two straight heats, the time being 3 minutes and 2-5 of a second and 2 minutes 10 1-5 seconds respectively. won a five-mile handicap and all of the special prizes offered for leading at the various five-

Indianapolits, Sept. 14.—"Major" Taylor defeated Owen Kimball on Wednesday night in a one-third-of-a-mile match race in 39 1-5 seconds. The race was exciting, but on the last quarter Taylor easily showed his superiority. In winning Taylor increased his standing in the National Cycling percentage table by 8 points, and he now heads the list by 12 ponts. He also captured the two-mile professional championship race, qualifying for the final heat with Cramer and Kimball. Cramer was second and Kimball third. Time, 4 minutes 40 3-5 seconds.

ond and Kimball third. Time, 4 minutes 40 3-5 seconds.

Automobilists are beginning to learn for themselves something new to them relative to pneumatic tires. According to repair shop men there is a large percentage of punctured tires being brought in on autos. In this respect the lot of the autofan is not a happy one. How natural it was for the automobile business to fall into the hands of the bleycle trade and how natural it will be for it to remain there is illustrated by the fact that a bicycle shop is the first place an autoist seeks when he has a punctured tire or when a part of the metal work breaks. The bicycle men have the tools and the "know how" and the carriage men have not. Autoists should, however, have some knowledge of what is required in repairing big pneumatic tires in order that they may not repeat the experience of a New York physician. A big nail punctured his tire and he paid \$10 to have it fixed. The repair lasted only a few days, the plug blowing out because the fabric beneath the rubber was not sewed up. A puncture in one of the big tires almost invariably breaks the meshes of the fabric and this has to be caught up around the hole and treated to "buttonhole stitching" in order to have a plug hold fast. Again some repair men of the hasty, careless kind endeavor to vulcanize an automobile tire in the same way they do a small bicycle tire. This cannot be done successfully. On the big tires the patch should be vulcanized with the plug or the job does not hold. Autoist's knowing these things will seek for shops where they are almost certain. should be vucanized with the plus of the look does not hold. Autoist's knowing these things will seek for shops where they are almost certain of the work being done properly. Undoubt-edly all the repair men along the roads will learn the tricks of the new game in time, but

Montclair, Sept. 14.—The Essex County Aut mobile Club has elected the following officers: President, Kirk Brown, Montclair, Vice-President, W. J. Stewart, Newark, Secretary, Dr. H. Power, Upper Montclair, Treasurer, H. W. Whipple, East Orange, Among the purposes of the organization are the holding of runs, mapping of routes, the promotion of good roads, and particularly of exerting influence for reasonable legislation governing the use of automobiles, and the defence of its members when their rights are assailed. The first action taken by the club was the offering of a reward of \$50 for information leading to the conviction of the persons who maliciously injured Dr. Power's automobile on the evening of Sept. 6.

At the September meeting of the Brooklyn Good Roads Association plans will be prepared for submission to the Municipal Assembly on the matter of street improvements. Such a move at this time is significant of the wakefulness of the organization, the idea being to get in a petitional year ahead of time, thereby preparing to attack the appropriations as soon as they are made. Specifications for street improvements in nineteen wards will be drafted.

Nike Wins the Hall Cup from the Nora.

The American Y. C. on Thursday held the last match race of a series of three between the Nike, own d by Guy Forbes, and the Nora, owned by Lewis Iselin, for the Harvey W. Hall cup. As both boats had a win to their credit a good race was looked for. The course was a ten-mile one, from the American Y. C. house to the Moit i oint buoy, Hempstead Harbor, and return. The wind was north-northwest, and for a short time after the race started was very fresh, but later on became fluky. The Nike won. Time, 2:86:03. The Nora's time was 2:49:10. The Nike was sailed by Charles L. and Howell C. Perrin and the Nora by Ralph Law.

The Mineola-Yankes Protests.

NEWPORT, Sept. 14.—Ralph N. Ellis returned rom New York to-night and it is now expected hat the decision of the Regatta Committee of the Newport Yacht Racing Association, of which he is chairman, in regard to the Mineoia-Yankee protests will be made to-morrow. When seen to-night Mr. Ellis said that he expected that it would have been made public several days ago, but that there would be little delay now in making a decision.

OUTLOOK FOR A. A. U. CHAMPIONSHIPS

Good Racing Expected Between International

Some carital racing may be expected at the ternoon. Nearly all the principal winners at the international championships are entered and as the field has been put in first-class condition new records may result from the meeting of the champions.

yard dash, in which the three crack sprinters, A. F. Duffy of Georgetown, J. W. B. Tewksbury of the University of Pennsylvania, and Maxwell W. Long of the New York A. C. and Columbia College are expected to fight out the final heat Duffy is the present champion. He also defeated Tewksbury at the English championships, but in later races abroad Long it would not be a great surprise if both of them beat the holder. Long and Tewksbury will dash, as they have better records for stamina than Duffy. An upset in both sprints may be caused by Frank A Stephen of the Wanderers' A. C. of Halifax. The Canadian is a sound, even timer, and has a reputation for gameness. Long will have a practical walkover in the quarter. In the half mile run H. E. Manvel has not entered to defend his title, and the event is an open one between McMeekin of Cornell and McGirr and Bray, New York A. C. The entry of B. F. Sullivan of Boston for the mile run was received last night. He will probably have a hard tussle with G. W. Orton, University of Pennsylvania, and A. L. Newton of the New York A. C. as Alexander Grant, the title-holder, may reserve himself for the flye-mile run, in which he will have an easy race. In the absence of Kraenzlein the hurdle races should be easy for R. F. Hutchinson of Princeton, who was prevented by the Nassau baseball managers from showing his form at the intercollegiate meeting hast spring. The international champion, Baxter, should win the high jump, while Baseom Johnson, if he puts in an appearance ought to outclass the other competitors in the pole vault. The broad jump is an open event, as neither Kraenzlein nor Prinsteln is expected to take pari.

There is a good deal of doubt as to the appearance of several of the champions in the weight events. Dennis Horgan, the Irish champion, is entered for the shot putting, but his whereabouts is a mystery. If, however, he should turn up at Columbia Field he will probably turn the tables on Sheldon, his conqueror in the English championship, as the latter has been ill and out of form. In Horgan's absence W. W. Coe, the New England athlete, will in all likelihood take the event, James S. Mitchell, who has not competed since 1877, will make his reappearance in the hammer, fifts-six-pound weight and discus throwing. It is quite on the cards that the veteran will win a championship, in which case he will hold the record of winning the most American chaminonships. He is now tied with the late L. E. Meyers f probably fight out the finish of the furlong dash, as they have better records for stamina
